WRITTEN FOR THE TIMES TELL ME NOT OF HONORS;

OR THE HAPPY WIFE.

BY MABEL LANSING.

Oh! tell me not of honors, Oh! tell me not of fame, Oh! tell me not of glories,
I would know them but by name.

I have all my heart desireth,-I have love, and home, and joys; I've a little blue-yed charun And three merry laughing boys.

My bome's down in the valley, Close of a river's side; I'm a wife, a happy mother, And I was a joyous bride.

But they told me grief and sorrow, Would mer my married life; If I did not wed a no deman, Or become a prince's wife.

And that joy is a lin grandeur,— But oh! I know 'tis not; For my home was in a palace But now 'tis in a cot.

They told me I would murmur When with my hands I toil'd; That my rolls would be sour and hard, And my bread quite often spoil'd.

That my cheeks from care would fade And my eyes loose their old light, But my cheeks never were so fresh Nor my eyes one half so bright.

I never knew such holy peace,-No, not in all my life, As I have felt in th' brief years Since I have been a wife

'Tis true my harp's neglected As it sits up by the wall; But a murm'ring word from my lips Was never known to fall.

I've the sweetest bread and rolls, To tempt the appetite; There never was a happier home, Edward told me so to-night

But sorrows they have come As sorrows always will; And when the winds of winter Blew bitter, cold and chill,

Our little Mayflow'r wither'd And drooping her fair head, Sank down upon my bosom, Then I knew my babe was dead.

Oh! the anguish of my spirit!

When my darling's soul had fled,
When I knew the child I'd nourish'd Was lifeless cold and dead

I wrung my hands in madness, And uttered bitter sighs; Forgetful of the peaceful rest Beyond the azure skies.

Then Edward brought our beys And kneeling close by me; Said tenderly yet mounfully; "Mary, thy babe is free."

"She's now a happy angel And though in grief you moan, Have you forgot the hearts of love-That are still within your home?"

Then I clasped my jewels closely That were left within our home. And clung with greater fondness To the heart that's all my own.

And when another year had roll'd, While birds sang wild and free,-The God of heav'n in kindness,

Sent back my babe to me. So we've another Mayflow'r To light our humble home, My heart is full of happiness

And I never feel alone.

Oh! there's more joy in our cottage, Than in many a princely dome; And not for all the wealth of worlds Would I give my cottage bome.

For here are all my jewels And the husband of my love. And I look from this dear place To th' happier world above.

A learned lord, recently speaking on ter of it.

OGLETHORPE UNIVERSITY.

This institution is situated at Mid way, in Baldwin county, on account o its central position, in a pleasant and healthful region, being a place easily accessible from all directions. The spot is elevated, on a ridge lying east and west, one mile and a half south of Milledgeville, and ending at the bluff on Oconee river, on which are the ruins of old Fort Wilkinson. The founda tion of the edifice is on a level with the top of the cupola of the statehouse; and the view is extensive on every side, embracing an undelating surface of twenty miles round, including Milledgeville.

The erection of the principal building was begun in 1836, and completed in 1838. It is of brick, two stories high, with a basement, in the Doric style; and being painted white, and of great extent, makes a striking appearance. Beauty is a reflection of the Deity, is a nectar that intexicates the soul .-It is the paradise of time-a congealed dream of heaven-the sculptored phanof immortality. It is visible music—the shadow of God, and the true mean-

China and the United States.

The British journals are inclined to speak disrespectfully of the course pur sued by the United States toward China, inasmuch as'we maintain amicable relations with the Celestial Empire, while England is almost constantly settling some difficulties at the mouth of the cannon. "The American Envoy, John Ward, kept his engagement with Kweiliang and his colleague; sailed to the port of Peh-tang, and begged for permission to go up to the capital to present a letter from his government. We accordingly authorized his admission into Pekin to present it, and having this day perused he letters addressed by the American Envoy, John Ward, to Kweiliang and Hwashana, and laid before us by those Ministers, we find the language so respectful, the true heartedness that has prompted them such, that we have authorized the Envoy in question to present the letter he is charged with from his government to Kweiliang and his colleague, whom we have sent to receive it.

THE GLOBE: THE OFFICIAL PAPER OF CONGRESS. I publish now my annual prospectus of the Daily Globe and the Congressional Globe and Appendix, to remind Subscribers, and inform those who may desire to subscribe, that Con-

those who may desire to subscribe, that Congress will meet on the 1st day of next December, when I shall recommence publishing the above named papers. They have been published so long, that most public men know their character, and therefore I deem it needless to give a minute account of the kind of matter that will contain they will contain.

The Daily Globe will contain a report of the

debates in both branches of Congress as taken down by reporters equal, at least, to any corps of short hand writers in this or any other country. A majority of them will, each, be able to report, verbatim, ten thousand words an hour, while the average number of words spokeli by fluent speakers rarely exceed seven thousand five hundred an hour. debates of a day do not make more than fortyfive columns, they will appear in the Daily Globe of the next morning, which will contain, also, the news of the day, together with such editorial articles as may be suggested by passng events.

The Congressional Globe and Appendix will contain a report of ail the debates in Congress revised by the speakers, the messages of the President of the United States, the annual reports of the heads of the Executive Departments, the laws passed during the session, and copious indexes to all. They will be printed on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages. The whole will make, it is believed, between 3,800 and 3,900 pages, the long sessions for many years past having ranged be tween those numbers, and the next sessio will be a long one This. I believe, is the cheapest work ever sold in any country, whether a reprint, or printed from munu-cript copy, ta-king for data the average number of words of the long session since the year 1848. The average number of pages is 3,876 and the average number of words on a page is 2,397, consequently the average number of words of a long session is 9,200,773. As I have sold to subsession is 3,200,110. As I have sold to sub-scribers that number of words for six dollars, it follows that they have paid less than six and one-half cents for every 100,000 words I have furnished them, while I have paid my raporters \$6 29 for every 2,397 words of this work in manuscript. manuscript

The coming session will, without doubt, b an unusually interesting one, because the can-didates of the respective parties for President and Vice-President of the United States will be nominated before it closes, and therefore the debates will be mostly on such political ques-tions as, it may be thought, will tend to influence public opinion in regard to the persons to be supported for these offices, and the Glore will be, as it has been for many years past, the only source from which the full debates of Cons can be obtained.

The Congressional Globe and Appendix pass free through the mails of the United States, as will be seen by reading the following Joint Resolution passed by Congress the 6th of Aug.

1852:
Joint Resolution providing for the distribution of the Laws of Congress and the Debates hereon.
With a view to the cheap circu ation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the represen-tative and constituent bodies—

Be it Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the present session of Congress, the Congressional Globe and Appendix, which contain the laws and debates thereon, shall pass free through the mails so long as the same shall be oublished by order of Congress: Provided, That nothing herein shall be construed to authorize the circulation of the Daily Globe free of postage.

Approved August 6, 1852, For a copy of the Dany Globe, during the session, \$5.00. For one copy of the Congressional Globe and Appendix, during the session, 6 00 For two copies ditto, when ordered at the same time, 10.00.

No attention will be paid to any order unless

the mony accompanies it.

Bank notes, current in the section of the ountry where a subscriber resides, wil be received at par. The whole or any part of the subscription may be remitted in postage stamps, which is preferable to any currency, except gold I cannot afford to exchange with all the

newspapers that desire the Globe; but I will send the Daily Globe during the session to the editors of those papers who publish this Pros-pectus three times before the first Monday of next December, and sending me one number of their paper containing it, marked with a pen to direct my attention. NEWSPAPER CRITICISM.

Much has been said, and much writen lately, concerning newspaper criticism; and what has thus been spoken or published relative to this important question, has proceeded most generally from a prejudiced or biased mind. We we may pen will be entirely free from prejudice, for every one is more or less under some warping influence. How be, we cannot say that we are entirely free from this prejudice, but hope that what may be written, may bring the candid mind to a calm consideration, such as the importance of the subject demands.

We would ask, then, first: Who would be, a priori, that is, who would we suppose to be more able to discern the ability with which a book is written, receive no compensation. or discriminate between the true and the false, the speculative and real, than occupation, from the bias of his mind, from his habits of thought, we would quickly if not immediately perceive plan. the beauties of a work, its interesting points, its defects, its elegances and its These prizes will be awarded the 15th of errors. We acknowledge that fection of excellence; but still this is their aim, and to this standard he is striving to attain. Moreover, such we expect them to be.

What does the a posteriori argument prove? This is our second question. Who have been the more successful critics? There are exceptions to all general rules, and we should not expect unequalled abilities; and, therefore, be specimens of beauty, grace and vigor. The experience deduced from ments drawn from the editorial ledger, prove that more confidence is placed in the clear, candid expression of approthose criticisms more stately, formal from the many threats made at this and precise. CHARLIE SINCLAIR: OR

A Duellist's Revenge.

BY LEWIS CLINT GAY MILLAB.

"I must, I will have revenge," mut tered a young man as he hurried down the street.

I was particularly struck with the ap pearance of Horace Wingate, for such was the name of the young man. His whole demeanor was that of the most refined, his conversation was that of the polished gendeman, and in addition to the possession of a handsome face and fine form, he had, evidently, a well-trained and well-culti vated mind Indeed I should say I was deased with him in every respect, except a the utterance of this determination "I must, I will have revenge." But a short time had I known him, and we had beome quite intimate.

In haste, I reached his side, and after the customary city salutations, I asked the cause of his has'e and excitement, for he did not know that I had heard him.

"I have sworn revenge," replied he, against Charlie Sinclair. He has most grossly insu.ted me, and not only has he usulted me, but he has done so in the presence of ladies and friends"

Nor could we urge too strongly the in culcation of the desire to keep the true honor untarnished and unspotted. Aye. we would sin if we did not urge it, and live to our preaching. He who would in culcate other principles, instil other beliefs than this, is a murderer and a suicide

By this however, we mean not to uphold that honor, falsely so called, which it from us to encourage in the least degree, such a system of cold-blooded murder and suicide, the most shocking ever nvented, by the most heard-hearted and cruel tyrant that ever swayed a sceptre

But we will leave this moralizing and continue the thread of our story "Then you will challenge, will you?"

I asked deploringly. "I will, most assuredly, and will you be my second ?"

" Most assuredly not; I cannot consent to encourage you Remember, Horace was, and our curiosity was wrought up to Wingate, what you are doing. HORACE WINGATE. Mr. Charles Sinclair

The epistle was soon carried to its destination. In the meanwhile let us trace another thread of the story. We left "Charlie Sinclair" at the res

dence of Mr. Laurens, (I was also present). He was unknown to all in the company with the exception of Miss Lau rens With her, however he seemed well acquainted. The cause of his attention to Miss Laurens, I ascertained afterwards, was that he was distantly connected with her and met her in St Louis during her stay there. Rumor had also whispered of a closer attachment than that of a dis tant relative's, and the probability of a nearer relationship. He had just eatered the hall when a messenger announced that a gentleman wished to see him. The billet was handed him to which we have before alluded. He read it hastily, and hurriedly, and taking a pencil wrote upon

the back of the note a reply.
While Price was away, I still endeavof the duellist. But it was in vain. Soon who was restless and excited, the reply was brought in. With eagerness and haste we read; but imagine our surprise when we read nothing but the challenge,

which had just been sent. With a suppressed voice and an oath, Wingate muttered something about insolence and pride.

Upon re-examination of the paper, we found the reply written upon the back of the challenge, in pencil and quite illegibly. We made out the answer to be, however, as follows:

Sir :- With much surprise, I read the inclosed. I regret that the most positive engagements prevent my being here to-morrow. I will meet you, however, tonight, if it pleases you, at 12 at the 4th planation. Put up pistols.

With great haste, I am Respectfully yours, CHARLIE SINCLAIR.

We three hurried to the fourth dock as rapidly as possible, and to our utter surprise we heard speaking. It was slow, solemn and earnest. We approached nearer. We could not yet determine what it of society. Wingate was utterly amazed and inquired if we had not made a misthe fourth dock.

WRITTEN FOR THE TIMES. WHERE IS HE TO-DAY.

BY INA CLAYTON.

Lonely,
Ah, yes, I'm very lonely,
Dreaming of the lov'd one only
Who is so far away.
And silently I sit and wonder Where he is to day.

Mourofully
The autumn winds sweep by Fit time for one so I one as I
To tune my plaintive lay,
'Mid tears and sighs I well may ask
Oh, where is he to day!

Weary Weary months have flitted by Since we last parted, he and I Nature was in summer array, But now the autumn clouds do lower, Then where is he to-day.

A NATURAL CURIOSITY .- Among the contributions to the museum of the New Orleans Academy of Sciences, at its egular session last Monday night, was a reptile or a fish-a species embracing some of the characteristics of bothfound, as well as its singular structure, was a curious specimen of natural history. It resembled in some respects a small Conger eel; had gills and lungs; but to its body were attached four short legs terminating in two toes each. This curiosity was found embedded in the solid earth, some four feet below the surface, by a gentleman

who was digging a well in Amite county, Miss., on the Jackson Railroad. A specimen somewhat similar, found in the marshes of Florida, is in the museum of the academy, but that has only two legs, which terminate in three toes .- New Orleans Picayane.

AYER'S CHERRY PEC-TORAL—For the rapid cure of Coughs, Colds, Hoarsenesss, Bronchitis, Whooping Cough, Asthma and Consumption, is universally known as the best remedy ever yet discovered for every variety of Pulmonary disease. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country body desired.

almost every section of the country abounds in persons publicly known who have been restored persons publicly known who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the disfressing and dangerous affections of the pulmonary organs which are incident to our climate. By its timely use many, nay almost any attacks of disease upon the Lungs or throat are arrested, and thus are saved many thousands every year from a premature grave. No family every year from a premature grave. No family should be without it, and those who do neglect to provide themselves with a remedy which wards off this dangerous class of diseases will wards off this dangerous class of diseases will have cause to deplore it when it is too late.—
Proofs of the surprising efficacy of the Cherry Poctoral need not to be given to the American people—they have living proofs in every neighborhood. But those who wish to read the statements of those whose whole health has been restored and whose lives have been saved by its use will find then in my description. use, will find them in my American Almanac which the agent below named has to furnish

WHY DO YE SUFFER WITH CANCERS, ASTHMA, SCROFDLA CANCERS, ASTHMA, SCROFULA, or any SKIN DISEASE, when it is in your power to be speedily and effectually cured? Having treated many very bad cases—some which were given up as hopeless, by those not knowing my remedies—I have no hesitancy in saying I can cure any one of the above diseases in a very short time. Seeing is believing, and if any one is credulous, I can produce a number of certificates from some of the first men in this and the adjoining States.
